

**Ronald R. Ezell Wins the 2008  
Donald C. 'Mac' MacDonald Award**

**By: Andy Estin**

Ron was a founding member of NAPPS since 1982. He was present when we formed NAPPS, well sort of... Actually it was his first time in a room with so many process servers and it made him sick so he was in his room when we voted to form NAPPS but his wife was present for him as she always has been. He claims something he ate made him sick but...

Ron has served NAPPS in every office as its President, 1<sup>st</sup> Vice President, 2<sup>nd</sup> Vice President, Secretary, and Treasurer for the last 8 years. He has served on the Board of Directors for 20 years. He has also been honored with the Bert Rosenthal Award from CALSPro (previously CAPPs). He was a founding member of his state association and served as it's president.

He served 14 papers his first month in business and proceeded to build his business into the largest in his state. He has always been good with

bookkeeping. He paid the rent for his first office by doing the books for the landlord.

He is a true builder. He worked in construction before becoming a process server. Since then he build his business and helped his state association grow and helped NAPPS grow. He has always been willing to help others in our profession. I said "profession" instead of "industry" because Ron taught me to always call it a profession. Once a competitor became ill with cancer. He ran her business for her for many months, without compensation, until she recovered from her illness and then he handed her business back to her intact.

Ron is completely deserving and a unanimous selection of the committee. He exemplifies the character, integrity, class, and commitment that exemplify Mac MacDonald. It was my great honor to present this year's Donald C. "Mac" MacDonald Award...
